

True Flex Gel Knee Pads

Model #: TSE-TFLX-4-16-GEL

True Flex Knee Pads are used and demanded by True Professionals worldwide working some of the most extreme work environments.

Interchangeable Grip Strips
2 sets included!

Stability Bar Grip Strip™
Aggressive profile, creates a more stable base!

Lo-Pro Grip Strip™
Lower profile, allows the knee to roll side to side easier!

TRUE COMFORT - TRUE PROTECTION

Fits most any size due to the flexible nature of the knee pad and near infinite adjustability of 1.5" wide *Nylon Elastic Straps* and *Nylon Zip Clips*

Full Natural Rotation

Uniquely jointed to allow full rotation of the knee. Allows the user complete freedom of movement without the inconvenience of knee pad slippage.

Maximum Protection

True Flex Knee Pads provide maximum protection well above and below the knee with incredible durability.

True Comfort

Premium Gel Pad insert provides gel comfort along with a High Grade inner foam padding for optimum support.

Dual Density Foam provides soft cushy foam against the user's knee for great comfort, firmer foam against the outer shell has excellent memory and does not break down.
