

# True Flex Neo Pads

Model #: TSE-NEO-PAD

True Flex Knee Pads are used and demanded by True Professionals worldwide working some of the most extreme work environments.

## Multi-Position Velcro Strap

High quality, infinite adjustability

## Final Surface Protection

Abrasion resistant pad protects finishing work and final surfaces

## Extreme Comfort

Soft flexible neoprene protects with the highest level of comfort

## TRUE COMFORT - TRUE PROTECTION

Fits most any size due to the high quality multi-positional strap and the soft flexible neoprene outer shell.

## Finishing Touch

Designed to be worn when completing finishing work, protecting not only the worker but also the final surface with the synthetic leather abrasion resistant front wear pad.

## Maximum Protection

3/4" closed cell inner foam pad coupled with the Neoprene layers creates a combined 1 1/4" of protection.

## True Comfort

Multi-position velcro strap and soft neoprene layers provide the highest quality of comfort for all day wear. Also great when working in shorts!
